5. Important information for existing annual rest mortgage customers

Please read carefully as the following information may be applicable to your mortgage:

As part of our commitment to continually improve, and in order to proceed with your application, we will need to make some changes to the way interest is calculated if your mortgage interest is calculated annually.

The key difference between your current terms and the new terms is the way in which interest is calculated. Interest on your mortgage is currently charged monthly to the account based on the balance outstanding on 31st March. When payments are received (or fees applied), the balance for calculating interest reduces (or increases) by the amount of the payment (or fee). On 31st March each year, the interest is then added to the balance outstanding with interest then charged on this new balance for the following year.

With effect from the transfer, we will move the date when interest is added to the last day of each calendar month. Interest from the 1st of the month will be charged daily on the balance as at the last day of the previous month. This will happen every day up to and including the last day of the month, when the interest will be added to the mortgage balance. The balance will continue to be reduced (or increased) by the payments made (or fees charged). Your payment date will not change.

The Standard Residential/ Buy to Let (as applicable) Mortgage Conditions will subject to the above changes continue to govern your mortgage from the date that we transfer the part or parts of the mortgage that are switching onto a new product. Should you have any concerns about the impact of these changes

we suggest you obtain independent legal advice. To proceed with the product switch, all borrowers must consent to these changes.
